WALKING FRAME PARTS Spare parts guide

Every spare part PQUIP stocks for walking frames and walkers, with the models each part is documented to fit. This list was produced from the PQUIP website on 9 October 2026; the website always has the current range, stock and your price.

FINDING THE RIGHT PART

- Find the **model code** on the product label - on the frame, under the seat or on the box - for example PA146, PAB820 or RCM0710.
- Look for that model in the **Fits** column. A part fits a model PQUIP no longer sells: the list keeps older models because the equipment is still in use.
- Where a part comes as a left and right, or in sizes or colours, the codes for each are listed under the main code.

> **Model not listed, or unsure?** Send us the model code and a photo of the part, and we will confirm it before you order - **07 3806 4274** or **sales@pquip.com.au**. Fitting a part should be done by someone competent to do it; if you are unsure, ask your supplier or a technician.

WALKING FRAME PARTS - 14 LINES

Picture	Code	Part	Fits
	RAWK305	5" WHEEL WALKER EXTENSION LEG	RBR603, RWK100, RWK101, RWK102, RWK104, RWK110, RWK112, RWK118, RWK300
